

COMPANY PROFILE

GOLDEN S.M.E. TRADING CO., LTD.

HISTORY

- GOLDEN S.M.E. TRADING COMPANY LIMITED WAS FOUNDED IN 2010 WITH THE VISION OF PROVIDING THE HIGHEST QUALITY AND MOST NUTRITIOUS FOODS FOR BELOVED PETS, WHILE SHARING THAT LOVE WITH FELLOW PET LOVERS.

- THE INSPIRATION BEGAN DURING OVERSEAS BUSINESS TRIPS, WHERE THE FOUNDER SOUGHT OUT SPECIAL TREATS FOR HIS OWN PETS—ALWAYS THINKING OF THEIR HAPPY FACES WAITING BACK HOME.

AFTER SHARING THESE IMPORTED TREATS WITH FRIENDS WHO WERE PASSIONATE DOG AND CAT OWNERS, THE OVERWHELMINGLY POSITIVE FEEDBACK SPARKED THE IDEA TO BRING THESE PRODUCTS INTO THAILAND. AT THAT TIME, SUCH TREATS WERE NOT READILY AVAILABLE IN THE LOCAL MARKET.

- WE CAREFULLY SELECT HIGH-QUALITY PRODUCTS FOR DOGS AND CATS FROM AROUND THE WORLD, IMPORTING THEM INTO THAILAND TO ENSURE PETS RECEIVE ONLY THE VERY BEST.

- BY 2020, THE COMPANY HAD EXPANDED ITS NETWORK TO INCLUDE OVER 100 SALES AGENTS NATIONWIDE, REFLECTING THE TRUST AND GROWING DEMAND AMONG PET OWNERS ACROSS THE COUNTRY.

OUR MISSIONS

THE COMPANY'S PRIMARY GOAL IS TO PROVIDE HIGH QUALITY PRODUCTS THAT ENSURE THE HEALTH AND HAPPINESS OF THE PRECIOUS PETS WHILE SUSTAINING ENVIRONMENT.

OUR VALUES

HAPPINESS AND WELL-BEING OF OUR FURRY FRIENDS
PET OWNER SATISFACTION

SUSTAINABILITY

OUR FOCUS IS TO DISTRIBUTE ORGANIC PET TREATS
BY MAKING SUSTAINABLE AND ENVIRONMENTALLY
CONSCIOUS CONSUMER CHOICES WHERE THE PRODUCTION
CYCLES STAY ECOLOGICALLY BALANCED.

WE PRIORITIZE REAL NUTRITIONAL VALUE.

- FRAGRANT, CRISPY, AND DELICIOUS WITH A GENTLE BAKE AT LOW TEMPERATURES
- RETAINS COMPLETE AND BALANCED NUTRITIONAL VALUE
- MADE WITH FRESH, NATURAL INGREDIENTS
- GENTLE ON YOUR PET'S STOMACH – NO BLOATING
- NO ADDITIVES, NO ARTIFICIAL COLORS OR FLAVORS – PURELY NATURAL TASTE
- MEAT-BASED FORMULA AS THE MAIN FOCUS
- FREE FROM ADDED OILS

What is the difference between gentle bake and extrusion food and how does it affect your pets?

This is a simple experiment showing how Sunday Pets® Gentle Baked™ and extrusion food reacts in water.

COLOUR OF THE WATER CHANGES

- Indicates Sunday Pets® Gentle Baked™ is breaking up into small pieces and dissolving into the water
- Simulating what goes on in the digestive system

OILY FILM ON EXTRUDED FOOD

- Extrusion food is soaking up the water, slowly expanding in size and shows no signs of breaking into smaller pieces.
- Extruded food can make your pet feel full while they expand in the stomach because of the amount of water it absorbed.
- They do not break into smaller piece as quickly thus little nutrition is being absorb.
- Extrusion food also have a higher chance of causing a blockage in the digestive system, commonly referred to as "bloat".
- Also, the high temperature and friction during extrusion remove much of the taste. To make up for it, artificial flavour enhancing oil is spray over the food.

FAQ

Q: Why does Sunday Pets uses organ e.g. lamb liver?

A: Organ provides several B vitamins such as B12, B1, B2, B5, B6, Biotin and choline as well as Vitamin A, C, D, E and K as well as Omega fatty acid. Most importantly it is a good source of lean protein.

Q: Are most dry dog food processed using extrusion? How do you identify extruded dog food?

A: Most dry food is processed by extrusion unless stated otherwise. Extruded food feels oily as they are sprayed with fats and oil during the process.

We believe in using fresh, wholesome ingredients and going back to the basic of cooking ie gentle baking to safeguard more of the taste and nutrients. We do not use processed ingredients like "meat meal" or dry vegetable powder. Just to share with you, "meat meal" has never been used as an ingredient in human food.

Feel, Smell and See - You will notice that Sunday Pets Gentle Bake food:

Feel - No oily surface, no additional oil added

Smell - Sweet aroma similar to human food

See - Tiny bits of carrots, fish skin etc

Q: How long is the transitions period?

A: It usually takes 7-14 days. It might take longer for dogs that have been fed extruded food for a longer time. Using Sunday Pets Gentle Bake food as a treat or topping for the first few days might help.

Q: Is it common to have soft stool?

Sunday Pets Gentle Bake food being rich and dense, it can cause some soft stool initially. It is common to have soft stool as they are re-introduce back to whole natural food. Unlike some other pet foods, we do not add any additives to manage smell or volume of the stool. We use fresh and whole-some ingredients in all our bake food and this might cause the dogs to have softer stools like dogs on fresh diet. Extruded dry food will usually give stools that are a lot drier and harder.
